

Staff Software Engineer · Full-Stack & AI

Staff Software Engineer at Vally, building full-stack products, agentic applications, and developer tooling. One of three engineers working across six connected applications. Developing software since July 2021. Open to asynchronous contract work and selective full-time opportunities, US remote or Madison hybrid.

|            |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |                                |
